1.01 - Data Privacy Concerns and its Impact on Research: The Practitioner View

Chair: ROBERT REICHARDT, Augenblick - Palaich and Associates

This discussion panel brings together staff from a range of school districts and a state agency to discuss the data privacy concerns they are facing, how those concerns are manifested in policy and procedures and how those concerns are impacting their ability to conduct research both internally and externally. The perspectives being represented are diverse. They include a medium sized school district (Harrison, enrollment about 11,500), a large school district (Jeffco, enrollment about 86,500), the state department of education, and a researcher working with most of those organizations.

Discussants: DAN JORGENSEN, Harrison School District #2, HEATHER MACGILLIVARY, Jeffco Public Schools, MARCIA BOHANNON, Colorado Department of Education, ABBY MCCLELLAND, Augenblick - Palaich and Associates

Policy Reactor: ANGELIKA SCHROEDER, Colorado State School Board Member - 2nd Congressional District

Methodology and education data

1.02 - The Teacher Incentive Fund: A Colorado Perspective on its Promise and Impact

Chair: MARK L. FERMANICH, APA Consulting

The U.S. Department of Education’s Teacher Incentive Fund (TIF) grant program was established in 2006 with the goals of 1) incentivizing the creation of performance-based educator compensation systems for rewarding effective educators, and 2) increasing the number of high-performing educators in high-need schools and hard to staff subjects (U.S. Department of Education, 2015). Since its inception the TIF program has awarded nearly $1 billion in grants to 131 grantees in four cohorts. Later rounds of TIF grants have stressed systemic change for the development of human capital management systems (HCMS) encompassing standards-based evaluation systems; performance-based compensation; and data driven professional development, recruitment, and retention strategies.

Colorado, a leader in experimenting with alternative educator compensation systems, is home to six grantees, several of whom have been awarded multiple grants. The purpose of this discussion panel session is to explore the TIF experience and impact of three Colorado-based grantees – Denver Public Schools, Harrison School District 2 and Jefferson County Public Schools. The session will focus on the following topics:
• What goals did the districts hope to achieve by participating in TIF?
• What were their experiences with implementing TIF? How did they use TIF to leverage change? What challenges did they face?
• How did state and local policies impact TIF implementation?
• How well have the districts achieved their goals for TIF?
• What is the future of their TIF initiatives? Are they sustainable?

Discussants: KATE BRENNAN, Denver Public Schools, LAURIE EASTUP, Harrison School District Two, MICHAEL MAFFONI, Jefferson County Public Schools, JOHN CUMMING, Jefferson County Public Schools

Policy Reactor: ALIX GALLAGHER, SRI International

Educator labor markets and effectiveness

1.03 - The Effects of Retention, Acceleration, and Classification Policies on Student Outcomes

Chair: ANDREW MCEACHIN, RAND Corporation

MATTHEW F. LARSEN, Lafayette College. Socially Promoted, Academically Retained: RD Estimates of Assorted Grade Retention Policies. JON VALANT, Tulane University

LOUIS T. MARIANO, RAND. The Impact of Grade Retention on High School Persistence: Evidence from New York City. PACO MARTORELL, University of California - Davis

MATTHEW A. LENARD, Wake County Public School System. Math Acceleration and Student Achievement: Regression Discontinuity Evidence from Wake County, NC. MEGAN TOWNSEND, Wake County Public School System

SARAH PRENOVITZ, Cornell University. What does special education do for the marginal student?

Discussants: RACHEL ROSEN, MDRC

Accountability and testing

1.04 - Teacher Evaluation in Practice

Chair: DAVID MANZESKE, American Institutes for Research

ANTHONY MILANOWSKI, Westat. Lower Evaluation Practice Ratings for Teachers of Disadvantaged Students: Bias or Reflection of Reality?

ANA M. ELFERS, University of Washington - Seattle. The Resource Impact on Schools and Districts in the Implementation of Ambitious Teacher Evaluation Policy. MARGARET L. PLECKI, University of Washington - Seattle, THERESA LING YEH, University of
WASHINGTON - SEATTLE

JIHYUN KIM, Michigan State University. What Influences Teachers’ Perceived Legitimacy of the New Teacher Evaluation Policies: Evidence from Virginia. MIN SUN, University of Washington, PETER YOUNGS, University of Virginia

ERIC PARSONS, University of Missouri-Columbia. Rigorous Teacher Evaluations in Practice. JULIE BERRY CULLEN, University of California-San Diego, CORY KOEDEL, University of Missouri-Columbia

Discussants: COURTNEY BELL, Educational Testing Service

Educator labor markets and effectiveness

1.05 - Teachers and Educational Equity

Chair: LI FENG, Texas State University

JEFF SWIGERT, Cornell University. Discrimination or Productivity? Experimental Evidence for the Effect of Perceived Race and Gender on Student Performance and Subjective Evaluation. TODD JONES, Cornell University, DAVID R. JUST, Cornell University, CORBIN LEONARD MILLER, Cornell University, RICH PATTYERSON, United States Military Academy

ALLISON GILMOUR, Vanderbilt University. The Teachers of Elementary School Students with Disabilities. GARY HENRY, Vanderbilt University

DANIELA TORRE, SRI International. How Teacher Experience and Credentialing Impacts the Achievement of English Learners

DAVID S. KNIGHT, University of Texas at El Paso. Who Bears the Cost of District Funding Cuts? Equity Implications of Teacher Layoffs. KATHARINE O. STRUNK, University of Southern California

Discussants: MICHAEL BATES, UC Riverside

Educator labor markets and effectiveness

1.06 - Behavioral Insights for Student Loan Policy: Evidence from Field Experiments

Chair: RACHEL BAKER, University of California-Irvine

RAJEEV DAROLIA, University of Missouri. Putting Students on Notice: An Experiment on Information Use in Student Loan Decisions

BENJAMIN M. MARX, University of Illinois at Urbana-Champaign. Default Bias in Borrowing: Evidence from a Field Experiment on Federal Student Loans. LESLEY J. TURNER, University of Maryland
ANDREW BARR, Texas A&M. *Nudging Community College Students to Make More Informed Loan Borrowing Decisions: Evidence from a Field Experiment*. KELLI BIRD, University of Virginia, BENJAMIN L. CASTLEMAN, University of Virginia

KELLY ROSINGER, University of Virginia. *How does Information about Financial Aid Awards Affect College Enrollment and Borrowing? Evidence from a Field Experiment*

**Discussants**: ISAAC MCFARLIN, University of Michigan

**Policy Reactor**: ETHAN FLETCHER, ideas42

*Higher education finance and governance*

### 1.07 - Dismantling barriers to college enrollment and completion

**Chair**: MICHAEL HURWITZ, College Board

GARY RITTER, University of Arkansas. *Ensuring College Readiness: an Evaluation of Arkansas’s Statewide Remediation Policy for First-Time College Enrollees*. EVAN RHINESMITH, University of Arkansas

DANIEL KREISMAN, Georgia State University. *The Effects of Financial Aid Loss on Student Persistence and Graduation*. ROSS RUBENSTEIN, Georgia State University, CYNTHIA SEARCY, Georgia State University, SUSAN DYNARSKI, University of Michigan

MICHAEL HURWITZ, College Board. *Surprising Ripple Effects: How Changing the SAT Score Sending Policy for Low-income Students Impacts College Access and Success*. PREEYA PANDYA MBEKEANI, Harvard University, MARGARET M. NIPSON, Harvard University, LINDSAY C. PAGE, University of Pittsburgh

**Discussants**: DARRYL HILL, Wake County Public Schools, ODED GURANTZ, Stanford University

**Policy Reactor**: KIM POAST, Denver Public Schools

*Higher education outcomes*

### 1.08 - The Determinants and Consequences of College Major Choices

**Chair**: SCOTT IMBERMAN, Michigan State University

MICHAEL LOVENHEIM, Cornell University. *Differential Earnings and Educational*
**1.09 - Effects of State wide School Finance Reforms**

*Chair:* MICHAEL HARWELL, University of Minnesota

HENRIQUE ROMERO, UCSD. *Growth in the Supplemental Security Income Program for Children: The Role of Local Jurisdictions and Fiscal Incentives.* JULIE CULLEN, UCSD; LUCIE SCHMIDT, Williams College

*Discussants:* BRUCE BAKER, Rutgers University

**1.10 - Evaluating and Understanding State Policy**

*Chair:* SEAN CORCORAN, NYU

YUJIE SUDE, University of Arkansas. *Who Are the Participants? Characteristics of Schools Participating in the Louisiana Scholarship Program*

BENJAMIN M CREED, Michigan State University. *Evaluating the systemic effects of*
competition on student outcomes in Michigan

QI XING, University of North Carolina at Chapel Hill. Financial impact of charter schools on traditional public schools in North Carolina from 2002 to 2011: A cross-districts comparison. ERIC HOUCK, University of North Carolina at Chapel Hill, JOE MAUGERI, University of North Carolina at Chapel Hill, VINCENT REITANO, North Carolina State University, JULIA PIERSON, Duke University

MICHELLE HALL, University of Southern California. California Weighs In: Education and the Politics of Policymaking

Discussants: GRANT CLAYTON, University of Colorado Colorado Springs

1.11 - Innovations in Collecting and Interpreting Education Data

Chair: GEMA ZAMARRO, University of Arkansas

DAVID MARTINEZ, Arizona State University. Swamping Errors: Comparing the Federal Graduation Rate to Common Proxies in Florida. SHERMAN DORN, Arizona State University

YILIN PAN, Teachers College Columbia University. Bayesian Decision Theory Guiding Educational Decision-making: Theories, Models and Application

JOANNA SMITH, University of Oregon. Minimizing Research Irrelevance Through Stakeholder Participation in Design: Lessons from Qatar. MICHAEL THIER, University of Oregon, HEATHER MCCLURE, University of Oregon

ALEX J. BOWERS, Teachers College Columbia University. From High School Curriculum Tracks to Maps: Applying Big Data Visual Analytics to Describing the Entire Enacted US High School Curriculum. YOUMNA DBOUK, The University of Texas at San Antonio

Discussants: NIRAV MEHTA, University of Western Ontario

Methodology and education data
Concurrent Session II, Thursday, March 17, 2016 - 09:45AM to 11:15AM

2.01 - Accessing and Using Census DataSets: Understanding and Better Using National Survey information

Chair: KIM RUEBEN, Tax Policy Center and Urban Institute

The Economic Census Division has recently completed a reorganization linking information based on use or outcome rather than specific survey. One goal of the reorganization was to strengthen the environment for research and innovation. Join the director and assistant director for the Public Sector Economy-Wide Division and users for a discussion on what the changes mean for accessing and using census of governments, digest of education statistics, economic and population files, and offer suggestions on how the data can be used.

Discussants: KEVIN DEARDORFF, US Census Bureau, ERIC BRUNNER, University of Connecticut, ANDY RESCHOVSKY, University of Wisconsin and Lincoln Institute of Land Policy

Policy Reactor: MELISSA THERRIEN, Economy-Wide Statistics Division

K-12 school finance

2.02 - Emerging Internal and External Validity Threats for Teacher, Program, and School Evaluations

Chair: JIM SOLAND, Northwest Evaluation Association

ANDREW RICE, Education Analytics. Impact of Student Assessment Opt-Out on Achievement and Growth Metrics in New York State. JOSHUA MARLAND, University of Massachusetts Amherst, ROBERT MEYER, Education Analytics

ERIN FAHLE, Stanford University. The Implications of Reduced Testing for Teacher Accountability. JESSICA ALZEN, University of Colorado Boulder, BEN DOMINGUE, Stanford University

NATE JENSEN, Northwest Evaluation Association. Understanding the Impact of Student Test Effort on Teacher Value-Added Estimates. JIM SOLAND, Northwest Evaluation Association, ANDREW RICE, Education Analytics

MATTHEW BAIRD, RAND Corporation. Dealing with Variation in Test Conditions When Estimating Program Effects. JOHN Pane, RAND Corporation

Discussants: ANDREW MCEACHIN, RAND Corporation
2.03 - Teacher Evaluation Measures and Their Effects

Chair: ERIC PARSONS, University of Missouri-Columbia

ALEXANDER POON, Tennessee Department of Education. **Investigating Misalignment in Teacher Observation and Value-Added Ratings.** NATE SCHWARTZ, Tennessee Department of Education

CARA JACKSON, Urban Teachers. **Developing Reliable Classroom Observation Systems**

LI TAN, University of Missouri. **Do Evaluation Ratings Affect Teachers’ Professional Development Activities?** CORY KOEDEL, University of Missouri, JIAXI LI, University of Missouri, MATTHEW SPRINGER, University of Missouri

REINO MAKKONEN, WestEd. **Student Learning Objectives (SLOs) as a New Teacher Evaluation Measure in Arizona and Utah.** JACLYN TEJWANI, WestEd

Discussants: MIN SUN, University of Washington

Educator labor markets and effectiveness

2.04 - The Implementation and Impacts of Multiple Measure Teacher Evaluation Systems

Chair: JOSHUA COWEN, Michigan State University

MELINDA ADNOT, University of Virginia. **Effects of Teacher Evaluation and Incentives on Non-Test Outcomes for Students.** THOMAS DEE, Stanford University, VERONICA KATZ, University of Virginia, JAMES WYCKOFF, University of Virginia

JOHN PAPAY, Brown University. **Learning Job Skills from Colleagues at Work: Evidence from a Field Experiment Using Teacher Performance Data.** ERIC TAYLOR, Harvard University, JOHN TYLER, Brown University and NBER, MARY LASKI, Brown University

KATHARINE STRUNK, University of Southern California. **Observations and Exits: The Relationship between Observational Measures of Teacher Effectiveness and Teacher Mobility**

COURTNEY BELL, Educational Testing Service. **The Role of Administrators in the Creation of High Stakes Observation Scores.** NATHAN JONES, Boston University, JENNIFER LEWIS, Wayne State University, YI QI, Educational Testing Service, LESLIE STICKLER, Educational Testing Service
Discussions: JANE LINCOVE, Tulane University, MICHAEL LOVENHEIM, Cornell University, mfl55@cornell.edu

Policy Reactor: TRACEY WEINSTEIN, Students First

*Educator labor markets and effectiveness*

**2.05 - Costs, performance and efficiency of Higher Education Institutions**

**Chair:** ROBRET KELCHEN, Seton Hall University

MICHAEL BATES, UC Riverside. *Educational Attainment, College Selectivity, and Job Separation*

DAEWOO LEE, Indiana University Bloomington. *For-profit Colleges: Proximity and Student Choice*

ROBRET KELCHEN, Seton Hall University. *How Do Colleges Respond to Accountability Pressures? Examining the Relationship between Cohort Default Rates and College Pricing*

**Discussants:** BRADLEY CURS, University of Missouri

*Higher education finance and governance*

**2.06 - Dismantling the Returns to Higher Education**

**Chair:** RAJASHRI CHAKRABARTI, Federal Reserve Bank of New York

JIHYE KAM, University of Madison-Wisconsin. *Efficient Supply of Human Capital: Role of College Major*. SOOHYUNG LEE, University of Maryland-College Park, SUNGJIN CHO, Seoul National University

ANGELA SUN, Stanford University. *The Impact of Developmental Education on For-profit College Student Outcomes*. ERIC BETTINGER, Stanford University, HANS FRICKE, Stanford University, SUSANNA LOEB, Stanford University, ERIC TAYLOR, Harvard University

ANDREW HILL, University of South Carolina. *The Positive Influence Of Female College Students On Their Male Peers*

College

**Discussants:** NICK HUNTINGTON-KLEIN, California State University Fullerton

Higher education outcomes

---

**2.07 - The Effectiveness of Policies Impacting the Higher Education Pipeline**

**Chair:** JENNIFER IRITI, Learning Research & Development Center (LRDC)

PAULA ARCE-TRIGATTI, Tulane University. *Investigating Behavioral Responses to an Early Promise Scholarship.* JONATHAN N. MILLS, Tulane University

JENNIFER ASH, Abt Associates. *The Effect of the El Dorado Promise Scholarship on Higher Education Outcomes.* GARY RITTER, University of Arkansas

KALENA CORTES, Texas A&M University. *Match or Mismatch? The Role of College Readiness, High School Peers, and Application Uncertainty in College Application and Enrollment Behavior.* JANE ARNOLD LINCOVE, Tulane University

**Discussants:** ROBERT BIFULCO, Syracuse University, MICHAEL HURWITZ, College Board

**Policy Reactor:** JENNIFER IRITI (LRDC) OR JENNIFER ASH (ABT), Learning Research & Development Center

Higher education outcomes

---

**2.08 - Examining the Efficacy of Alternative Indicators of Low-Income for State Aid Formulas**

**Chair:** GAIL SUNDERMAN, University of Maryland

MICHAEL HARWELL, University of Minnesota. *Don’t Expect Too Much: The Limited Usefulness of Current SES Measures*

ROBERT G. CRONINGER, University of Maryland - College Park. *Alternative Indicators of Low-Income Students, School Funding Formulas and the Community Eligibility Provision of the Healthy Hungry-Free Kids Act.* JENNIFER KING RICE, University of Maryland - College Park, LAURA CHECOVICH, University of Maryland - College Park

BRUCE BAKER, Rutgers University. *Improving School Finance Equity through Cost-Adjusted Poverty Measures.* LORI TAYLOR, Texas A&M University, JESSE LEVIN,
American Institutes for Research, JAY CHAMBERS, American Institutes for Research

**Discussants:** DANIEL THATCHER, National Conference of State Legislatures

**Policy Reactor:** JESSIE HEWINS, Food Research and Action Center

---

**2.09 - International Evidence on Schooling Effects and Efficiency**

**Chair:** MICHELLE HALL, University of Southern California

ELIF OZULKU, Florida State University. *Middle School Science Teacher Preparation and Student Achievement in Science in Turkey.* COURTNEY PRESTON, Florida State University

TOMMASO AGASISTI, olitecnico di Milano School of Management. *The efficiency of secondary schools in an international perspective: results from PISA 2012*

YOUNGRAN KIM, Michigan State University. *The Effects of School Competition and Student Sorting on School Achievement: Evidence from the Seoul School Choice Program*

YANG SONG, Colgate University. *Sorting, School Performance and Quality: Evidence from China*

**Discussants:** BENJAMIN M CREED, Michigan State University

---

**2.10 - Refining Methods of Causal Inference in Education Policy**

**Chair:** DUNCAN CHAPLIN, Mathematica

MARK C. LONG, University of Washington. *For Whom is the Treatment Effective? An Atheoretic Inductive Approach to Identifying Response Heterogeneity.* GRANT H. BLUME, University of Washington

RODDY THEOBALD, American Institutes for Research. *Lord’s Paradox and Targeted Interventions: The Case of Special Education.* THOMAS RICHARDSON, University of Washington

NIRAV MEHTA, University of Western Ontario. *An Economic Approach to Generalize Findings from Regression-Discontinuity Designs*

GEMA ZAMARRO, University of Arkansas. *Comparing Performance of Methods to Deal with Differential Attrition in Lottery Based Evaluations.* KAITLIN ANDERSON, University of Arkansas, JENNIFER STEELE, American University, TREY MILLER, RAND Corporation

**Discussants:** LEIGH WEDENOJA, Cornell University
Methodology and education data

2.11 - Comprehensive Approaches to Supplementing Student Learning

Chair: A. BROOKS BOWDEN, Columbia University

ZEEST HAIDER, MDRC. An Evaluation of the Communities in Schools Model of Integrated Student Supports. WILLIAM CORRIN, MDRC, LEIGH PARISE, MDRC, MARIE-ANDREE SOMERS, MDRC, KELLY GRANITO, MDRC

TAMMY KOLBE, University of Vermont. Implementing the AVID/TOPS Pre-College Program: A Resource Utilization & Cost Study. RACHEL FELDMAN, University of Wisconsin-Madison/Wisconsin

MARIE-ANDREE SOMERS, MDRC. Ninth Grade Academies in Florida: A Study of their Implementation and Effects on Student Outcomes. IVONNE GARCIA, MDRC

Discussants: JENNIFER KING RICE, University of Maryland

Policy Reactor: VERONICA FIGOLI, Chief of Family & Community Engagement

Inequality and social context
Concurrent Session III, Thursday, March 17, 2016 - 11:30AM to 01:15PM

3.01 - Sometimes more is more: Improving student achievement through researcher/practitioner partnerships focused on more effective leadership

Chair: LA’TARA OSBORNE-LAMPKIN, Florida State University (Regional Educational Laboratory-Southeast)

The purpose of this session is to describe the components and assess the process of a strategic partnership between state officials in North Carolina and university-based researchers. The partnership focused on principal preparation, development and evaluation as a lever to improve student learning, particularly in schools identified in the bottom five percent of conventional schools and the lowest ten percent of districts in North Carolina.

Discussants: CAROLYN HERRINGTON, Florida State University, JERRY SIMMONS, North Carolina Department of Public Instruction, LA’TARA OSBORNE-LAMPKIN, Florida State University (Regional Educational Laboratory-Southeast), MARCIA KOSANOVCICH, Florida State University (Regional Educational Laboratory-Southeast)

Policy Reactor: ALESSANDRO MONTANARI, North Carolina Department of Public Instruction

School leadership and organizations

3.02 - New lessons on the longer-term impacts of Head Start

Chair: LEIGH SHEBANIE MCCALLEN, The City University of New York

CHLOE GIBBS, University of Notre Dame. Breaking the Cycle? The Intergenerational Effects of Head Start. ANDREW BARR, Texas A&M University

ELISE CHOR, Northwestern University. Leveraging Multigenerational Head Start Participation to Reduce Socioeconomic School Readiness Gaps

ALEXANDER SMITH, United States Military Academy West Point. Head Start in the Long Run: What is the Impact of Head Start on Criminal Outcomes in Adulthood?. ANDREW BARR, Texas A&M

Discussants: MARIA ROSALES-RUEDA, University of California - Irvine, KAREN MANSHEIP, American Institutes for Research

Early childhood interventions
### 3.03 - Using to Data to Evaluate and Improve Human Resource Practices

**Chair:** KRISTINE WEST, St. Catherine University  
CAITLYN KEO, St. Catherine University. *Movements of Effective Teachers Across Student Demographics*  
ELTON MYKEREZI, University of Minnesota. *Disentangling the Effects of Monitoring and Pay-for-Performance*  
CHRISTOPHER MOORE, Minneapolis Public Schools. *Identifying Effective Teachers in the Absence of Publicly Reported Evaluation Scores*  
KRISTINE WEST, St. Catherine University. *Do Early-Offers Equal Better Teachers?*  
**Discussants:** SETH GERSHENSON, American University  
**Policy Reactor:** CHRISTOPHER MOORE, Minneapolis Public Schools

_Educator labor markets and effectiveness_

### 3.04 - Financial Aid and Student Loan Policy: Interactions, Impacts, and Implications

**Chair:** BASIT ZAFAR, FRBNY  
SUSAN DYNARSKI, University of Michigan. *An Economist’s Perspective on Student Loans in the United States*  
ANDREW BARR, Texas A&M. *The Post-9/11 GI Bill’s Effects on Degree Attainment, Aid Interactions, and Student Debt*  
JUDITH SCOTT-CLAYTON, Teachers College Columbia University. *Financial Aid, Debt Management, and Socioeconomic Outcomes: Long-Run Effects of the WV PROMISE.*  
BASIT ZAFAR, FRBNY  
PACO MARTORELL, University of California - Davis, BRIAN MCCALL, University of Michigan  
**Discussants:** BENJAMIN MARX, University of Illinois at Urbana-Champaign  
**Policy Reactor:** ROHIT CHOPRA, Center for American Progress

_Higher education finance and governance_

### 3.05 - Evaluating Programs to Promote College Access and Success Among Special Populations of Students
Chair: NATHAN BARRETT, Tulane University

STEVEN W. HEMELT, University of North Carolina at Chapel Hill. Multifaceted Aid for Low-Income Students and College Outcomes: Evidence from North Carolina. CHARLES T. CLOTFELTER, Duke University, HELEN F. LADD, Duke University

ADRIENNE SMITH, University of North Carolina at Chapel Hill. Measuring the Effectiveness of the College STAR Intervention for Recruiting and Retaining Students with Learning Differences. J. MONTANA CAIN, University of North Carolina at Chapel Hill, SARAH C. FULLER, University of North Carolina at Chapel Hill

SARAH C. FULLER, University of North Carolina at Chapel Hill. The Effect of the Gaining Early Awareness and Readiness for Undergraduate Programs Grant on College Enrollment, Competitiveness, and Retention in North Carolina. MANAN ROY, University of North Carolina at Chapel Hill, YIYI LIU, University of North Carolina at Chapel Hill, CAROL CUTLER WHITE, University of North Carolina General Administration

SILVIA ROBLES, Harvard University. The Impact of a STEM-Focused Summer Program on College and Major Choices Among Disadvantaged High-Achievers

Discussants: SARAH CANNON, University of Michigan

Policy Reactor: ALISA CHAPMAN, University of North Carolina Genera Administration

Higher education outcomes

3.06 - The Effects of High School and College Course Taking and College-Student Sanctions

Chair: STEPHEN L. DESJARDINS, University of Michigan

TATIANA MELGUIZO, University of Southern California. Exploring Placement and Progression in English as a Second Language Course Sequences at Community Colleges. W. EDWARD CHI, University of Southern California

PAUL UMBACH, North Carolina State University. Accelerated Remedial Math and College Success. DIFEI LI, North Carolina State University

MATT STARCKE, North Carolina State University. Racism and Sanctions for Drug Violations during College: A Randomized Field Experiment Using Vignettes. STEPHEN R. PORTER, North Carolina State University
**Discussion:** WILL DOYLE, Vanderbilt University, BRAD CURS, University of Missouri

**Policy Reactor:** DEMAREE MICHELAU, Western Interstate Commission for Higher Education (WICHE)

### 3.07 - College Experiences, Debt, and Post-Degree Outcomes

**Chair:** ERIC A. HANUSHEK, Stanford University

JESSICA SCHELD, Rutgers University. *Labor Market Effects of Community College Education*

ERIN DUNLOP VELEZ, RTI International. *Debt’s Burden after College – The Effects of Student Loan Debt on Graduates’ Employment and Other Post-College Outcomes.* MELISSA COMINOLE, RTI International, ALEXANDER BENTZ, RTI International

JING LI, Columbia University. *Private Returns to Study Abroad in College*

KAI HONG, Vanderbilt University. *Understanding the Mechanisms Linking Cognitive Skills, Socioemotional Skills, and College Education with Longevity.* PETER SAVELYEV, Vanderbilt University, KEGON TAN, University of Wisconsin - Madison

**Discussants:** ALFREDO SOSA, University of Michigan

*Impacts of schooling on labor market outcomes*

### 3.08 - Charter Schools Finance and Spending

**Chair:** MARGUERITE ROZA, Georgetown University

CHRISTIAN BUERGER, Tulane University. *Revenue and Expenditures in the First All Charter School District*

ROBERT BIFULCO, Syracuse University. *The Effect of Charter Schools on School District Efficiency: The Case of New York State.* CHRISTIAN BUERGER, Tulane University

MEG JALILEVAND, Michigan State University. *Financing Special Education: Charter Schools, Cross-subsidization and Unintended Cost Burdens*

**Discussants:** CHAD ALDEMAN, Bellwether Education Partners
### 3.09 - New Evidence on Scaling Up the Charter Sector

**Chair:** DANIELLE EISENBERG, KIPP Foundation

SEAN CORCORAN, NYU. *The Continuing Impact of Democracy Prep Public Schools*. SARAH CORDES, Temple University

ELIZABETH SETREN, MIT. *English Language Learners and Special Education Students in Charter Schools: Classification and Effectiveness*

**Discussants:** MARK BERENDS, Notre Dame University

**Policy Reactor:** DANIELLE EISENBERG, KIPP Foundation

*K-12 school governance/politics and school choice*

### 3.10 - The Measurement of Noncognitive Skills

**Chair:** ROSS ANDERSON, University of Oregon

COLLIN HITT, University of Arkansas. *What if Students don’t Care? Reexamining International Differences in Achievement and Non-Cognitive Skills*. GEMA ZAMARRO, University of Arkansas, ILDEFONSO MENDEZ, University of Murcia

MARTIN WEST, Harvard University. *Measuring social-emotional skills at scale: Evidence from California’s CORE districts*. ETHAN SCHERER, Harvard University, AARON W. DOW, Harvard University

MICHAEL THEIR, University of Oregon. *Maturing measurement: Validity and reliability trials of a measure of global citizenship for high school students*

DANY SHAKEEL, University of Arkansas. *Comparing and Validating Measures of Character Skills: Findings from a Nationally Representative Sample*. GEMA ZAMARRO, University of Arkansas, ALBERT CHENG, University of Arkansas, BART ORRIENS, University of Southern California
Discussants: LINDSAY WEIXLER, Education Research Alliance for New Orleans
Policy Reactor: JIM SOLAND, Northwest Evaluation Association

Methodology and education data

3.11 - Conditions that Affect Education Discourse, and Policy and Resource Diffusion

Chair: LORA COHEN-VOGEL, University of North Carolina at Chapel Hill
JENNIFER LEE, University of Florida. Conditions that Affect College Readiness Policy Adoption: A Policy Innovation and Diffusion Study. DENNIS KRAMER, University of Florida
SHAUNA CAMPBELL, University of Southern California. Using Texas Textbook Disbursement Data To Identify Differences in District-Level Materials Adoptions. MORGAN POLIKOFF, University of Southern California, HOVANES GASPARIAN, University of Southern California, TENICE HARDAWAY, University of Southern California, STEPHANI WRABEL, University of Southern California
LORA COHEN-VOGEL, University of North Carolina at Chapel Hill. The Agenda Discourse: A Framework for Understanding the Federal Role in Improving Education Research. ALLISON ROSE SOCOL, University of North Carolina at Chapel Hill, TORRIE EDWARDS, University of North Carolina at Chapel Hill, QI XING, University of North Carolina at Chapel Hill
JESSICA J. GOTTLIEB, University of Notre Dame. Diffusion in a Vacuum: The Case of edTPA. ETHAN HUTT, University of Maryland, JULIE COHEN, University of Virginia

Higher education finance and governance

3.12 - Understanding the evolving role of for-profit colleges and universities

Chair: SOUNG BAE, Stanford University

At their recent peak, for-profit colleges and universities enrolled approximately 13% of all postsecondary students in the U.S. These enrollments differ in important ways from non-profit and public enrollments. For-profit students are more likely to be low income, minority, in career-focused fields, and seeking sub-baccalaureate awards. For-profit institutions have been distinct from non-profit and public institutions in other ways, too. They pushed less conventional educational strategies, such as online education and mid-year enrollment, which they claimed allowed them to reach students ignored by the traditional programs offered by non-profit and public institutions. Many heralded for-profit colleges for changing the conversation and challenging higher educational norms,
which was rewarded with rapidly enrollment growth and rising profits. However, the landscape has changed for for-profit higher education over the last four years. For-profit institutions have gone from double-digit increases in enrollment, to now four years of decline; from emphasis on their capacity for disruptive innovation to lawsuits by attorneys general; and from record-breaking profits to the collapse of one of the biggest for-profit providers (Corinthian) and the closure of many smaller campuses around the country. Given this clear and abrupt turn-around, this session seeks to continue a conversation that addresses two central questions that promote sharing knowledge about new and important developments in for-profit policy.

**Discussants:** SU JIN JEZ, Sacramento State, STEPHANIE CELLINI, George Washington University, DERRICK ANDERSON, Arizona State, RAJEEV DAROLIA, U of Missouri

**Policy Reactor:** BOB SHIREMAN, David Halperin

Higher education finance and governance
First General Session - The Perils of Research Irrelevance: Balancing Data Use Against Privacy Concern

The first general session focuses on the theme of the AEFP conference: balancing data use against privacy concerns. Protecting student privacy has become a hot-button issue. There are active debates in Washington about re-writing the Family Educational Rights and Privacy Act (FERPA), and in many states have recently passed or have pending legislation that would limit data access. This can have profound implications for the data available for research purposes. In the moderated discussion in this panel we will get a diverse set of perspectives about how to balance the need for data access to generate information useful to inform educational policy or practice decisions against the real, or sometimes perceived, concerns by parents and the public that sensitive information about students could be broadly released or used for inappropriate purposes. The panelists for this general session include: Aimee Guidera, President and CEO of the Data Quality Campaign, which advocates for the use of data and research to encourage continuous improvement of schools; Leonie Haimson, the Founder and Executive Director of Class Size Matters, which advocates for the ability of parents to protect their children’s privacy and control the disclosure of their personal student data; and Shayne Spalten, the Director of Education for the Charles and Lynn Schusterman Family Foundation and former Chief Human Resources Officer for the Denver Public Schools.
4.01 - Supporting Students at School and Home: Can Place-Based Strategies Move the Needle on Student Achievement?

Chair: MEGAN GALLAGHER, Urban Institute

From local efforts like the Harlem Children’s Zone to federal efforts like Promise Neighborhoods, place-based and place-conscious strategies are bringing new partners to the table to improve student achievement. Although funding for these efforts takes up a small proportion of overall education expenditures, they represent an important commitment to address barriers to learning for many low-income students. This discussion panel will highlight how these efforts work, how data are used to communicate among partners, and whether and when they can be expected to move the needle on student achievement. This panel will also discuss how these efforts can be linked to existing city and county service systems. The policy reactor for this panel will share insights on how place-based and place-conscious strategies play a role in Denver’s K-12 education landscape.

Discussants: AMY ELLEN SCHWARTZ, NYU Institute for Education and Social Policy, PETER TATIAN, Urban Institute, LISA PISCOPO, Denver Office of Children’s Affairs

Policy Reactor: ANTONIO PARES, Denver Office of Children’s Affairs

**4.12 - Reconsidering Cost Accounting in Higher Education: A Discussion of New Approaches for Answering Questions for Policy & Practice**

**Chair:** SARA GOLDRICK-RAB, University of Wisconsin-Madison

What do colleges and universities need to spend to educate their students? Growing concerns with college affordability, reductions in state support, and increasing use of performance-based funding in higher education make this an especially important question.
However, our ability to answer this question in a way that can guide policymaking and practice is hampered by limitations inherent in existing data systems and cost accounting methods. With few exceptions, higher education cost studies have relied on expenditure data from institutions’ financial management systems or the federal government’s Integrated Postsecondary Education Data System (IPEDS). Cost studies that use accounting data are heavily influenced by these data’s purposes, conventions, and limitations. Accounting data are fundamentally transactional, chronicling institutional expenditures on core functions (e.g., instruction and research) and objects (e.g., personnel and facilities), and are collected and organized according to guideline established by public accountancy organizations for the purposes of financial management and accountability. They were not intended to answer questions about how institutional assets, especially personnel, might be organized to achieve desired goals, the relative value of programs and practices, or at what level colleges should be funded to ensure sufficient resources for high quality programming.

**Discussants:** TAMMY KOLBE, University of Vermont, MATTHEW SOLDNER, American Institutes for Reseach/Delta Cost Project, MARIA ANGUIANO, University of California-Riverside, PATRICK KELLY, National Center for Higher Education Management Systems

*Higher education finance and governance*
Concurrent Session V, Thursday, March 17, 2016 - 04:30PM to 06:00PM

5.01 - Improvement Science and Traditional Research Paradigms: Bridging the Divide to Advance Evidence-Based Policy, Programs, and Practices

Chair: ELLEN B GOLDRING, Vanderbilt University

The Education Sciences Reform Act of 2002 established the Institute of Education Sciences (IES) to support high quality research that could improve education. The Institute of Education Sciences stated goal was “the transformation of education into an evidence-based field in which decision makers routinely seek out the best available research and data before adopting programs or practices that will affect significant numbers of students” (Institute of Education Sciences), and to “conduct and support scientifically valid research activities” (Education Sciences Reform Act of 2002). The interest is in educational research that “aims to support causal inferences about the efficacy of specific educational programs or policies” (Jacob, Ludwig, et al., 2005, pg. 47). Since those early days, IES has expanded with new articulations and emphases on relevance, as well as rigor, and new initiatives such as research partnerships and translating research to practice through published practice guides (Cohen-Vogel et al., 2015). The purpose of this panel discussion session is threefold, 1) to develop a deeper understanding of the convergent and divergent goals, methodologies and current portfolios of improvement science and traditional educational research, 2) to discuss the extent to which they are opposites on a continuum or mutually supporting in the pursuit of evidence to develop scalable practices and policies, and, 3) to ascertain the extent to which federal educational policy funding and guidelines should incorporate improvement science in evidenced-based research policy. The discussion will center on how the two approaches to research can or should inform one another to support the goals of evidence-based policies and practices, and, what role each has in developing the demand-side for educational research.

Concurrent Session VI, Friday, March 18, 2016 - 08:00AM to 09:30AM

6.01 - The Role of Surveys in Education

Chair: PETER GOFF, University of Wisconsin

Across the country, educators are increasingly using surveys to gather information about perceptions within schools. These might range from surveys about specific individuals such as a teacher or school leader, or they may include various stakeholder surveys targeting the school as a whole. According to the most recent State of the States report, 33 states either require or allow student surveys to be included in teacher evaluation, 21 states require or allow parent surveys in teacher evaluations, and 8 states allow peer surveys in teacher evaluation. Further, 23 states allow the use of surveys within principal evaluation and 10 of these states have surveys as a requirement (NCTQ 2015).

The implementation of surveys, particularly in a high-stakes context, raises several key questions. These range from the development and validation of surveys, to the proper uses for survey data, to strategies for reporting results and professional development. This panel will bring together experts in various fields of educator surveys to discuss the following questions:

What are the benefits of developing a local survey versus using a previously validated survey?

What are some strategies for engaging stakeholders in surveys?

Is it appropriate to use survey data for evaluation purposes? What factors should be considered when deciding whether to include these measures?

What are some best practices for reporting results?

What are successful ways that schools are using survey data to inform decisions and professional development for teachers and school leaders?

Discussants: RYAN BALCH, My Student Survey, RON FURGUSON, Harvard University, ELLEN GOLDRING, Vanderbilt University, THOMAS HANSON, WestEd

Policy Reactor: JASON PEREZ, Oklahoma Department of Education

Discussants: JAMES COWAN, American Institutes for Research

K-12 school governance/politics and school choice

Chair: THOMAS WEI, U.S. Department of Education

There is increasing interest for state and local agencies to conduct low-cost opportunistic experiments to test promising interventions and policies. The increased availability of administrative data provide a rich data source for such evaluations. However, state and local agencies experience barriers to planning these rapid cycle evaluations and analyzing the effects and costs of interventions. Through projects funded by the U.S. Department of Education (ED), several tools designed to reduce barriers to rigorous evaluation are being developed. These tools will be publicly available and free.

Through the Office of Educational Technology (OET), a web-based interactive Rapid Cycle Tech Evaluations (RCTE) toolkit is being developed to meet the needs of districts seeking to evaluate the education technology products they use. The Institute of Education Sciences (IES) has funded other tools to facilitate the conduct of opportunistic experiments by state and local education agencies and to support cost analyses of education programs and interventions. This panel will present brief demonstrations of tools that are being developed for the RCTE toolkit and other tools funded by IES, and also engage participants in a discussion of their usability and application in education settings.

The panel will be chaired by Thomas Wei, a Senior Research Scientist at IES, who has provided guidance on the development of the IES-funded tools. He will briefly overview the steps IES, in partnership with other U.S Department of Education program offices, is taking to remove barriers faced by districts in conducting rapid cycle evaluations. In addition to supporting the development of RCT-YES, ED is providing grant and contract support for low-cost, quick turnaround studies, brief write-ups of findings to disseminate evidence to broad audiences, and the creation of TA materials including guides to conducting opportunistic experiments in school districts.

Concurrent Session VIII, Friday, March 18, 2016 - 11:30AM to 01:00PM

8.01 - A Cost-Effective, Constitutional Methodology for Determining the Actual Cost of a Sound Basic Education

**Chair:** MICHAEL A. REPELL, Teachers College Columbia University, HENRY M. LEVIN, Teachers College Columbia University, ROBERT SHAND, Teachers College Columbia University

Over the past 25 years, there has been a proliferation of cost studies (sometimes called “education adequacy studies”) that estimate the amount of funding needed to provide all students an opportunity for an adequate education. More than 40 such studies have been undertaken in dozens of states. The widespread use of these studies stemmed from court orders in many of the fiscal equity and education adequacy cases that have required states to determine the “actual cost” of providing an adequate education. The papers to be presented at this session will discuss in detail a proposed new cost-effective constitutional cost methodology and a rigorous approach to analyzing cost effectiveness that complements that methodology. The constitutional cost methodology will (a) systematically apply constitutional standards and other relevant legal requirements to the cost-analysis enterprise; (b) continuously incorporate into the analysis high-quality research in constitutionally relevant areas to identify educational resources and practices that have proved effective both in terms of positive student outcomes and cost effectiveness; (c) be overseen by a permanent commission composed of policy makers, educators, and researchers, with appropriate staff charged with issuing a report recommending necessary revisions to the state’s cost analyses and expenditure levels every two years and (d) ultimately, where necessary, be subject to judicial review.

8.13 - The role of state education agencies in a post-NCLB era

Chair: PATRICK MURPHY, Public Policy Institute of California

This is a “flipped” session – where the discussants will all be practitioners and the reactor will be an academic. The purpose is to examine the capacity of state education agencies (SEAs) to operate in a world where they have more autonomy – and more responsibility under the reauthorized ESEA.

The session would begin with a brief overview of how the federal-state relationship has evolved over the past 15 years and the new expectations that have been placed upon the SEAs. In short, these agencies have been asked to become performance managers after decades of serving as compliance monitors. Making the transition has not been easy – and is unlikely to get easier. State administrators must deal with limited resources, employees whose skills don’t match the new demands, and a federal education department whose inflexible regulatory requirements often get in the way.

Deputy education department chiefs from 3-5 states will form the panel, highlighting obstacles they encounter, and providing examples of steps they have taken to surmount them. The academic reactor will help place the observations in context, with particular attention to the federal-state regulatory relationship.

The applied nature of the session should appeal to both researchers and practitioners interested in the state’s role in supporting schools and districts. It also should surface relevant research questions in this understudied area of education policy.

Discussants: KATHLEEN AIRHART, Tennessee Department of Education, LIZZETTE REYNOLDS, Texas Education Agency, MICHAEL THOMPSON, Wisconsin Department of Public Instruction, VENESSA KEESLER, Michigan Department of Education

Policy Reactor: NORA GORDON, Georgetown University

School leadership and organizations
The recent reauthorization of the Elementary and Secondary Education Act, dubbed the “Every Student Succeeds Act” (ESSA), returned significant autonomy to the states on the design and implementation of their accountability systems. The uniform federal accountability system under NCLB that was replaced by federally approved alternatives under NCLB waivers will now give way to 50 different accountability systems that only need to satisfy general parameters set by federal law.

ESSA gives states broad leeway to choose what measures to include in their accountability systems and how to intervene in schools that fall short. It also raises questions about how the federal government will use its more limited authority under ESSA to enforce federal requirements for these systems. Regardless of the outcome of the upcoming election, the next administration will face a number of important decisions regarding federal involvement in ESSA implementation.

This panel will bring together researchers and policymakers to discuss what lies ahead for ESSA implementation. The discussion will cover the policy decisions that states and local districts will face as they design their new accountability systems, with a focus on measurement (including teacher evaluation) and interventions in schools judged to be failing. Panelists will also discuss how implementation will be affected by state and federal politics. California and Colorado will serve as case studies in the conversation, which will examine both the immediate transition from NCLB waivers to ESSA and the longer-term implications of the new federal education law.

**Moderator:** MATTHEW CHINGOS, Urban Institute

**Discussants:** HEATHER HOUGH, Executive Director, CORE-PACE Research Partnership, Policy Analysis for California Education, MARTIN WEST, Harvard University

**Policy Reactors:** RICK MILLER, Executive Director, CORE Districts, MARK FERRANDINO, Denver Public Schools CFO and Former Speaker of the Colorado House of Representatives
Concurrent Session IX, Friday, March 18, 2016 - 03:00PM to 04:30PM

9.01 - Assessing the Assessments: Measuring quality for a new generation of state tests

Chair: AMBER NORTHERN, Thomas B. Fordham Institute

Over the past five years, states have upgraded their K-12 academic standards to equip students to better meet the prerequisites of college and career. Now that the majority of states (at last count nearly 40) have adopted the Common Core State Standards (CCSS) (or versions close to them), the obvious next question is, how can we be sure that the assessments used to measure the CCSS are high quality, accurately reflecting the demands of these college and career ready standards? Assessment quality is critically important, not only for ensuring that cut scores more accurately represent readiness for college and career, but also for sending consistent messages to teachers about what they should be teaching.

Over the last year, the Thomas B. Fordham Institute led a study seeking to provide states and policymakers with this much-needed information on test quality. We conducted the first-of-its-kind evaluation of three “next-generation” assessments—ACT Aspire, PARCC, and Smarter Balanced—and a well-regarded existing state assessment (the Massachusetts Comprehensive Assessment system, or MCAS). We were granted access to secure, operational test forms from each of the four vendors. Our review included evaluation of English language arts/literacy and mathematics assessments at the elementary and middle grades. (HumRRO conducted a parallel study evaluating high school assessments.)

The research utilized a brand new methodology developed by the National Center for the Improvement of Educational Assessment (NCIEA). Their study design was based on the Council of Chief State School Officer’s (CCSSO) “Criteria for Procuring and Evaluating High Quality Assessments,” which seeks to re define test quality for a new generation of state tests. The methodology brought together over 30 experts for in-person and online reviews of operational test forms and documentation. Each test item was rated on multiple dimensions that describe what high-quality assessments should look like in the Common Core era.

As the first implementers of the methodology, we learned much about the ins and outs of evaluating large-scale assessments for quality—as well as the politics that surround such evaluations. The purpose of this session is to briefly summarize the results of the review and then share some of the lessons we learned along the way.

9.07 - Outcomes of Non-Traditional Paths to Higher Education

Chair: GARY RITTER, University of Arkansas

NICOLE D. SMITH, North Carolina State University. Examining the Effects of Online Courses on Student Outcomes using Weighting Procedures on a State-wide University System

MELINDA PETRE, University of California - Irvine. Community College Student Decision Making in the Wake of the Great Recession

PATRICK LANE, Western Interstate Commission for Higher Education. The Return on Returning: The Economic Benefit of Baccalaureate Degree Completion after Stopping Out
**9.08 - Voters, Politicians, and School Resources**

**Chair:** JAMES COWAN, American Institutes for Research

DANIEL B. JONES, University of South Carolina. *Governors Matter: Partisan Affiliation and State Education Spending*. ANDREW HILL, University of South Carolina

PAUL N. THOMPSON, Oregon State University. *Agenda-Setting Techniques, School Tax Choices, and Voter Turnout: Implications for Regression Discontinuity Designs Using School Tax Election Results*. MICHAEL CONLIN, Michigan State University

YOUNG-SIK KIM, Korea Research Institute for Vocational Education & Training. *The Effect of Educational Decentralization on Educational Expenditure and Outcome: The Evidence from South Korea*. DONG WOOK JEONG, Seoul National University, HO JUN LEE, Seoul National University

**Discussants:** SEAN CORCORAN, NYU

**K-12 school finance**

---

**9.09 - Influences on and Inferences About Teacher Preferences**

**Chair:** JAMES V. SHULS, University of Missouri - St. Louis

SUSANA CLARO, Stanford University. *Effect of Teaching on Education Policy Preferences, Case of Teach for All Participants using a Regression Discontinuity Design*

SEONG WON HAN, University at Buffalo. *Do Pay and Working Conditions Make a Teaching Career Attractive to Young Students? Evidence from the Program for International Student Assessment*. FRANCESCA BORGONOVI, Organization for Economic Co-operation and Development, SONIA GUERRIERO, Organization for Economic Co-operation and Development

LINDSAY FOX, Stanford University. *Inferring School Desirability Based on Teacher*
Transfer Requests in New York City

SUN YOUNG YOON, University of Wisconsin–Madison. Teacher Turnover and Unequal Distribution

Discussants: DANIEL BOWEN, Rice University

9.10 - School Discipline Reform, Policing, and Student Outcomes

Chair: TRACEY SHOLLENBERGER LLOYD, Urban Institute

SUMMER ROBINS, UCLA. Youth-Police Interactions and Student Behavior and Achievement. TRACEY SHOLLENBERGER LLOYD, Urban Institute, NICOLE JOHNSON-AHORLU, UCLA, LUCY ZHANG BENCHARIT, Stanford University, MEREDITH SMIEDT, UCLA, PHILLIP ATIBA GOFF, UCLA

JOHANNA LACOE, Mathematica Policy Research. Rolling back "Zero Tolerance": The Relationship between Discipline Policy Reform and Suspension Usage. MATTHEW P. STEINBERG, University of Pennsylvania

Discussants: MATTHEW CHINGOS, Urban Institute

Policy Reactor: KIMBERLY GRAYSON, Martin Luther King Jr. Early College - Denver Public Schools

PAM AND RICARDO MARTINEZ, Padres y Jóvenes Unidos

9.11 - Teachers' Network, School Leadership and Community Impact

Chair: PETER GOFF, University of Wisconsin at Madison

MATTHEW SHIRRELL, Northwestern University. What Predicts the Dissolution of Ties Between Teachers?. JAMES P. SPILLANE, Northwestern University

MICHAEL HANSEN, The Brookings Institution. Estimates of Teach For America as a Vehicle for Community Investment

MORGAEN L. DONALDSON, University of Connecticut. Implementing a Teacher Incentive Fund 4 Grant: How Do Teachers Respond to New Leadership Roles and Compensation?

DAN PLAYER, University of Virginia. How Fit Is Associated with Teacher Mobility and
**Attrition.** PETER YOUNGS, University of Virginia, FRANK PERRONE, University of Virginia, ERIN GROGAN, TNTP

**Discussants:** KEVIN C. BASTIAN, UNC Chapel Hill

*School leadership and organizations*

### 9.12 - Teachers, peers, and school context

**Chair:** JOHN M. KRIEG, Western Washington University

SUNG TAE JANG, University of Minnesota. *Whose race matters: Rethinking cultural dissonance between students and teachers.* Gil JAE LEE, Chungbuk University

STEPHANI L. WRABEL, University of Southern California. *Who, Where, and When: An Investigation of the Relationship between School Poverty and Student Mobility*

JONATHON M. ATTRIDGE, Vanderbilt University. *Do schools optimize resources to acclimate mobile students?*

ZITSI MIRAKHUR, Princeton University. *Understanding High School Context: Examining the Relative Influence of Teachers and Peers*

**Discussants:** JOHN M. KRIEG, Western Washington University, ADAM WRIGHT, University of California Santa Barbara

*Inequality and social context*

### 9.13 - Neighborhoods, School Context, and the Implications for Schooling

**Chair:** ERIC BRUNNER, University of Connecticut

RICHARD O. WELSH, University of Georgia. *From 2D to 3D: Examining the relationship between student mobility, school quality and neighborhoods in a large urban district.*

TENICE HARDAWAY, University of Southern California, QUYNH TIEN LE, University of Southern California

JULIA BURDICK-WILL, Johns Hopkins University. *Neighborhood Disadvantage and the Heterogeneity of Educational Experiences: High School Attendance Patterns in Chicago*

**Discussants:** SARAH CORDES, Temple University, KEREN HORN, University of Massachusetts Boston

*Inequality and social context*
9.14 - Publishing for Junior Scholars

Chair: COLIN CHELLMAN, City University of New York

The session will provide new scholars -- graduate students and recent PhDs -- with valuable guidance and "best practices" for getting published. These will include tips and advice on framing and describing your research; navigating the review process; positioning your research (choosing journals); maximizing the chances of success; and "do's and don'ts". The panel includes editors from three top journals in education policy and finance. In addition to the three confirmed editors listed, additional panelists may include EFP Associate Editors Stephanie Cellini, Katharine Strunk, or Eric Brunner.

Discussants: AMY ELLEN SCHWARTZ, Syracuse University / New York University / EFP, JOSHUA COWEN, Michigan State University / EEPA, ROBERT BIFULCO, Syracuse University / JPAM

Policy Reactor: COLIN CHELLMAN, City University of New York

Discussants: PETER JONES, University of Alabama Birmingham

K-12 school governance/politics and school choice
Concurrent Session XI, Saturday, March 19, 2016 - 09:45AM to 11:15AM

11.01 - MCAS, PARCC, or Door #3? The role of research in the Massachusetts assessment decision

Chair: MARTIN WEST, Harvard University

In November 2015, all eyes were on Massachusetts as the state’s Board of Elementary and Secondary Education decided whether to keep its current Massachusetts Comprehensive Assessment System (MCAS) tests, adopt the Partnership for Assessment of Readiness for College and Career (PARCC) tests, or take another approach. This highly consequential decision for Massachusetts was informed by an unprecedented amount of internal and external research. PARCC Inc., the nonprofit organization that supports the consortium of states participating in the PARCC assessment, commissioned an extensive series of research projects aimed at better understanding the psychometric properties of the test, including reliability, validity, quality, and comparability to other assessments. The Massachusetts Department of Elementary and Secondary Education itself commissioned a study of statewide district assessment practices and collaborated with stakeholders on a third-party study of two districts’ experiences in administering the 2014 PARCC field test online. As the decision loomed closer, two major additional third-party studies also contributed to the policy discussion. The Fordham Institute and Human Resources Research Organization teamed up to conduct an analysis of how well the MCAS and PARCC tests met the Criteria for Procuring and Evaluating High Quality Assessments established by the Council of Chief State School Officers. And the Massachusetts Executive Office of Education hired Mathematica to conduct a study of the predictive validity of MCAS and PARCC for college GPA and remediation. In this panel discussion, representatives from these four groups will discuss the findings from their research and how they contributed to the decision process.

Discussants: JEFFREY NELLHAUS, PARCC Inc., IRA NICHOLS-BARRER, Mathematica, REBECCA DVORAK, Human Resources Research Organization

Policy Reactor: CARRIE CONAWAY, Massachusetts Department of Elementary and Secondary Education

Accountability and testing

11.02 - The Impact of Market Reforms on Early Childhood Education

Chair: LINDSAY BELL WEIXLER, Tulane University

LINDSAY BELL WEIXLER, Tulane University. The Provision of Public Pre-K in the Absence
of Centralized School Management. JANE ARNOLD LINCOVE, Tulane University, ALICAGERRY, Tulane University

Concurrent Session XII, Saturday, March 19, 2016 - 11:30AM to 01:00PM

12.01 - Sustaining the Momentum: Linking Early Childhood Education and K-12 Systems

Chair: ERICA GREENBERG, Urban Institute

In the last decade, state preschool programs have increased spending by $2 billion and nearly doubled enrollments to serve one-third of all four-year-olds. Several cities have launched their own programs, and the Obama Administration has invested in preschool access and quality through its Race to the Top—Early Learning Challenge Fund, Preschool Development and Expansion Grants, and other initiatives for children birth to three-years-old. Yet, early childhood education often remains separated from K-12 systems by governance structures, funding streams, data systems, and program policies. In turn, lack of integration may challenge efforts to sustain the momentum created by high-quality early childhood education programs—particularly for children most at risk.

This discussion panel will blend recent research, policy, and practice to (1) assess the current state of early childhood education and K-12 systems alignment at the federal, state, and local levels; (2) identify ongoing barriers to systems alignment; and (3) illuminate promising P-3 (preschool through third grade) and P-16 models while considering their expansion nationwide. Although this work "is not for the fainthearted" (Takanishi, 2011), it is central to increasing the efficiency and effectiveness of public investments and improving children’s short- and long-term academic outcomes.

Policy Reactor: JENNA CONWAY, Louisiana Department of Education
